The Brand

Vision

Cooking has become a strategic place in daily life.
It is a place for relaxation, sharing, and creativity.
The democratization of cooking has changed our relationship with the kitchen and its appliances. Cooking has definitely become a pleasure.

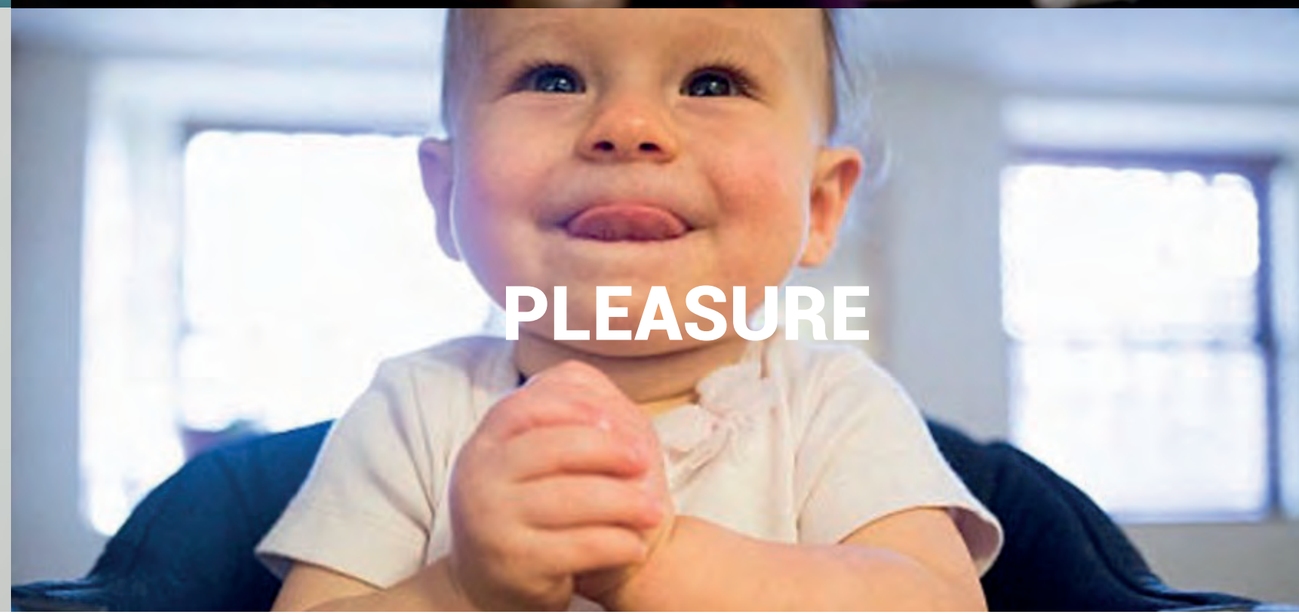

Mission

To make quality products accessible to everyone to enhance the cooking experience. To offer a wide variety of products to allow everyone to express their creativity in the kitchen

SHARING

CREATIVITY

AFFORDABILITY

PLEASURE

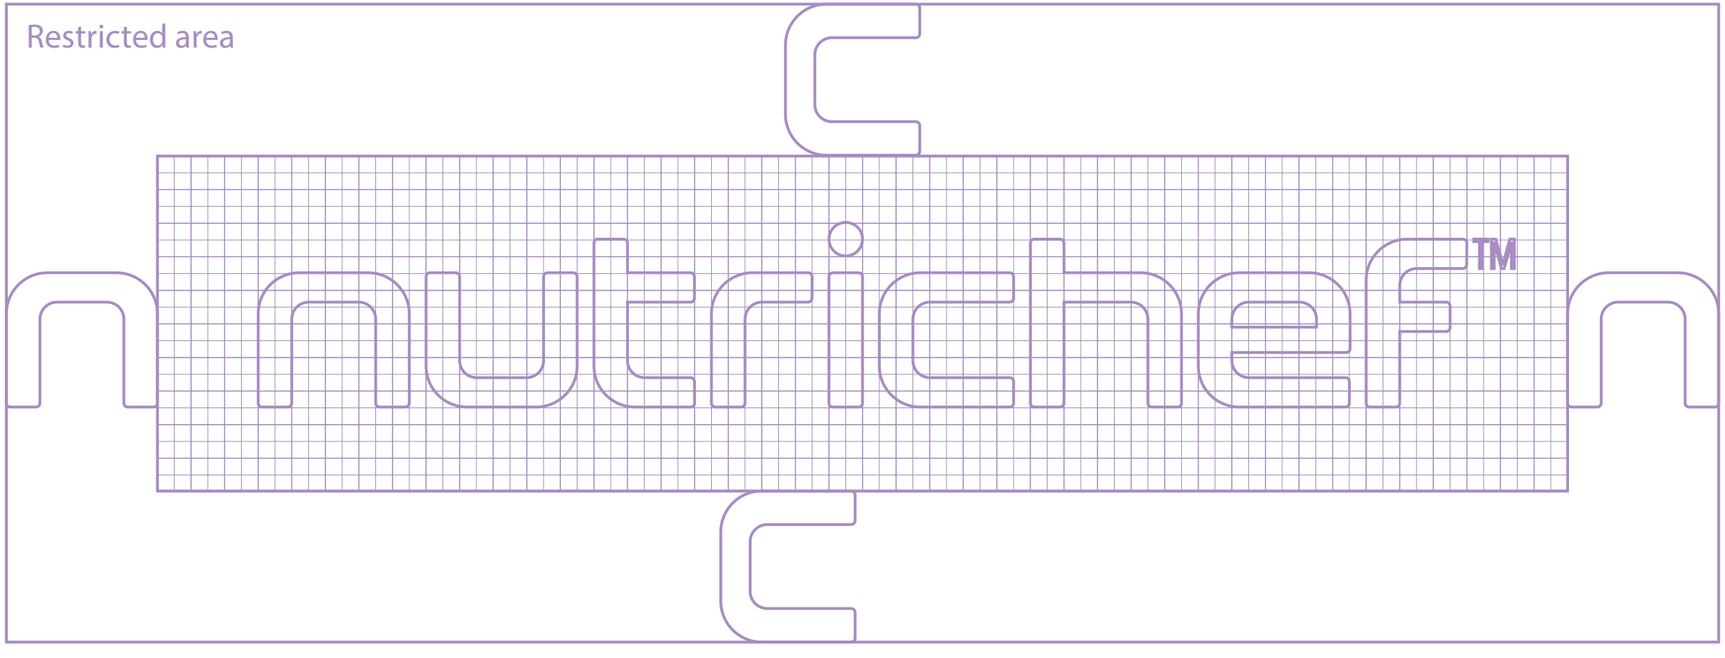

Tone of voice

The brand's communication should be conceived as an extension of our everyday language. Impactful and concise with a little humouristic twist, it should enable the connection between the visual and the tangible world of the consumer

Logo type

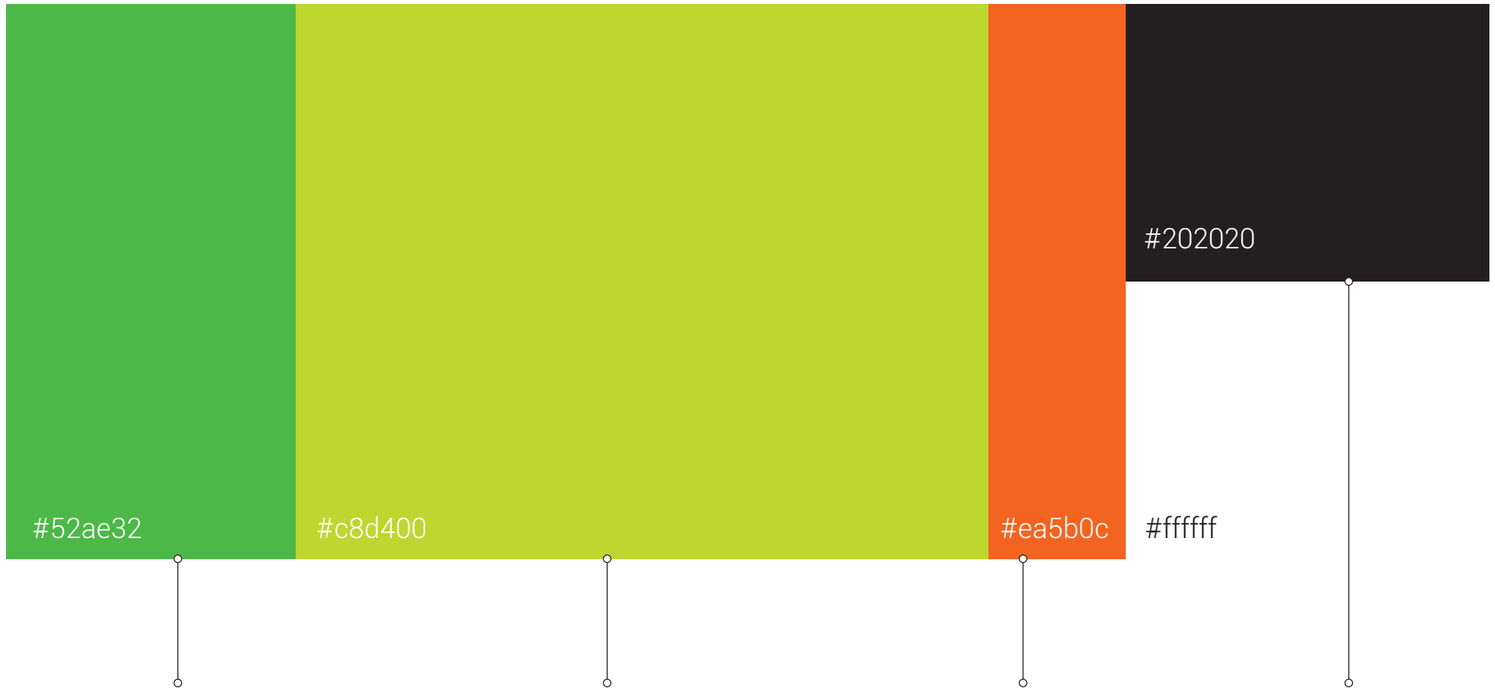

nutrichef™

Primary logo must be used on every case exept product

Colors

Nutrichef's palette consists of 5 main shades. These colors have been specifically chosen to reflect our values and personality.

Serving as the primary hue, it embodies the brand, its freshness, and modernity. It should be used for prominent elements such as headlines and call-to-action.

This color is perfect for backgrounds or secondary elements.

Used sparingly, this color enables highlighting specific elements.

Based on the background hue, the text will be in white or black to achieve a contrast that ensures easy readability.

Visual elements

nutrichef™

Icon must be design using the Nutrichef logotype's grid

Corporate visual

Corporate visuals should not primarily aim to present a product but rather the everyday reality of life in a kitchen. Even if the image does not feature a product, the Nutrichef™ logo should be included while adhering to the usage guidelines.

Lifestyle image

The visuals must represent the product in its environment and show people (except close up). The scene should be as natural and realistic as possible, both in attitude and lighting.

Product should be in the foreground
The wrong wooden tool's proportion create fake aspect

The product should not be in the background and less important than the food

Shadow must be realistic

Hero image

The hero image is the main image and should reflect the quality of the product. The product should occupy the maximum space in the frame and be in the foreground. When the product is clear and needs to stand out from the white background, it is possible to add decorative elements that facilitate understanding of the object's use.

Merchandising package

Some products may require the creation of custom packaging to be used as a background for the product, in order to highlight customer benefits that would differentiate the product from the competition. While tailored, this packaging should adhere to the brand's guidelines to ensure consistency.
