brand marks

Logo

Icon

SereneLife Logo

Use full wordmark wherever full brand recognition is necessary. For example, if SereneLife is a sponsor at an event, the SereneLife logo should appear in full, as that's the full extent of the brand recognition.

Leave a minimum of a letterspace of width around the SereneLife logo to allow it to breathe properly.

SereneLife

Logo in Use

You can use the SereneLife wordmark full-width to create a statement. If you want to keep things subtle, it can take up 30%-50% of the width.

SereneLife

Small format (30%-50% width)

SereneLife

Large formats (full-width)

SereneLife Icon

In general, opt for the full wordmark over the icon. The icon is supplementary; the full wordmark is the main logo.

The icon can be used anywhere you'd like to add some brand oomph, like the business card, on a box, or on your Instagram profile.

Headline Style

Headlines can fluctuate in size across one piece of collateral, although we recommend sticking to certain standard point sizes for consistency. (120, 100, 80, 72, 60, 48, 36, 24). Don’t capitalize the first word of your headline sentence on ads for a casual, lifestyle vibe.

Body Styles

Body paragraph size should remain consistent across one piece of collateral. Standard point sizes include 20, 18, 16, 14, 12, 11, 9, and 8. Choose the font size that is appropriately legible for your artboard size.

Creating emphasis: Choose to embolden body paragraphs over italicizing, underlining, or other forms of emphasis.

From paddleboards to massage stones, we carry everything you’re dreaming of to make your life better – at prices that keep you smiling.

Here a phrase in a body paragraph is boldened for emphasis.

From paddleboards to massage stones, we carry everything you’re dreaming of to make your life better ***– at prices that keep you smiling.***

✕ Do not italicize and bolden when boldening is sufficient.

✕ Do not use “heavy” weight instead of “bold” to bolden.

Patterns

Iconography

Pattern

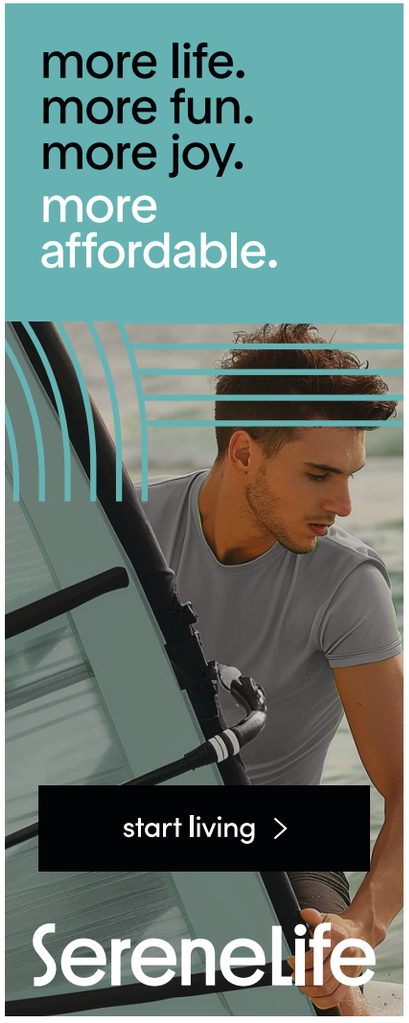
The pattern is inspired by deeply calming Japanese zen gardens, which use rakes to create mesmerizing patterns in the sand.

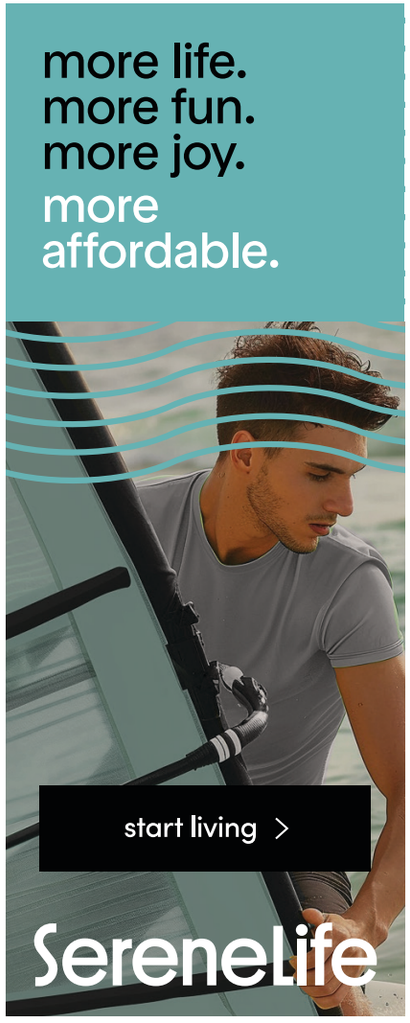
Pattern Use 1: Edge-to-Edge

Use a pattern to entirely fill a space with a coordinating color underneath (whether deeper or lighter). Do not leave any gaps.

Pattern Use 1: Overlap

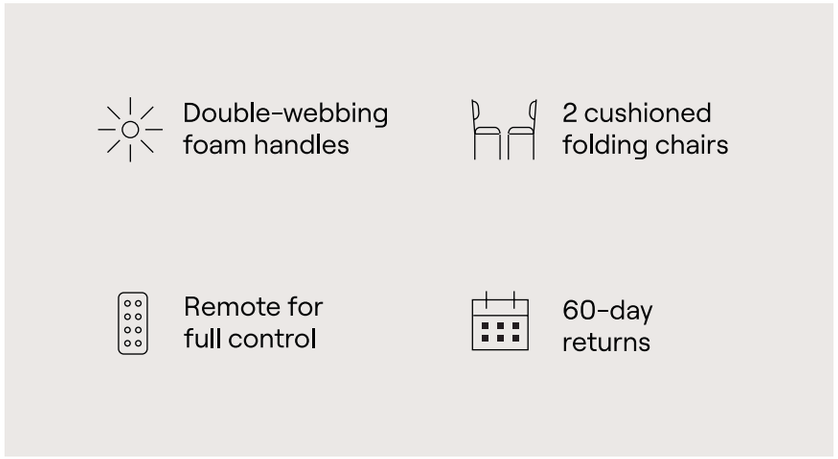
The patterns in the overlap folder allow you to layer patterns atop images. The patterns should always be connected to a flat color block on one end of a matching color tone. The patterns should always overlap on an edge-to-edge image.





Iconography

Keep iconography flat, thin, monoline, and black or white (depending on background color.)



✓ Icons are black, simple shapes in monoline.
